DEPARTMENT OF BUSINESS ADMINISTRATION

INTRODUCTION:

The Bachelor of Business Administration (BBA) program at **ILM College (Institute of Leadership & Management)** is for students who aspire to opt for a career in today's business world.

The BBA program places emphasis on business, management, economics, marketing, accounting and finance. It is suitable for students who are interested in learning business strategies, principles and prepares them to excel in a professional business environment.

In research-oriented and student-centric business environment, our highly qualified and competent faculty help students apply critical thinking technology and analytical and communication skills to business situations and formulate business strategies.

Another goal of our program is to help graduates draft successful business documents and deliver effective oral presentations by using a variety of suitable technologies. They are able to show proficiency in the fundamental concepts, theory and tools taught in the core undergraduate curriculum and work effectively as a team member.

At **ILM College (Institute of Leadership & Management)** business graduates are taught about the dynamics of local industry and ways to apply strategic planning tools to functional areas. They follow highly ethical standards of teaching to function in the local business setting.

VISION

The Department of Business Administration envisions transforming itself into the leading business education institute in the region with marked excellence and exclusive traditions to develop the skilled, dedicated and creative business professionals and entrepreneurs.

MISSION

The Department of Business Administration is committed to provide quality education to business graduates through inculcating them the conceptual knowledge synergized with practical applications; utilizing the latest equipment and infrastructure with excellent and trained faculty.

The department is striving hard to transform them into competent professionals trimmed fine enough in catering to innate demand of diversified industries and to contribute their significant role in the development and prosperity of the society as well as country.

DEPARTMENT OF COMPUTER SCIENCES

INTRODUCTION:

Computer Science as a discipline has huge scope in almost every industry in the world. The BS in Computer Sciences program essentially focuses on the procedures and concepts used in the development of advanced software systems. This BS Computer Science program helps students with the exploration of the conceptual foundation of Computer Sciences such as its fundamental algorithms, programming language and more.

The curriculum provides students with deep knowledge and broad skills regarding modern software and hardware concepts, and introduces students to numerous programming paradigms. In addition, students have the opportunity to choose from a rich set of electives.

Department of Computer Science encourages faculty members and students to undertake research and development and engage in collaborative work with industry. This provides them insight into the real world problems. Department of Computer Science graduates may work in an international environment. Therefore, class instruction and interaction between students and faculty members is conducted in English to ensure that graduate possess written and spoken fluency in English. This is accomplished foremost in the required laboratories, term reports, senior design projects, and internships.

VISION

The vision of the Department of Computer Sciences is to ensure that the students take maximum advantage of the modern computer sciences to solve a wide range of complex scientific technological and social problems.

MISSION

The mission of the department is to provide exemplary education and training to our students in the field of range of Computer Science so that they productively contribute to academia and industry.

Chairman ILM Group of Colleges
Rector UMT

Chairman Message

The true spirit of ILM College and UMT is true commitment to the future leaders of the nation through inspired teachers and mentors by imparting the necessary skills, education and environment in order to help them thrive with higher intellectual capabilities. One of our prime objectives is to provide an environment that is safe and promotes self growth. Furthermore the method of delivery of the curriculum is being improved so that the students achieve their goal in all fields of life.

The Core values of the organization, being quality education, mutual respect, safe and healthy environment and balance between caring for the community and individual achievement, are respected and followed. The target set is to create a better future and in order to achieve, the students are provided with tools to be more efficient and creative.

A long lasting relationship is developed with them to nurture them and to guide them to honing their skill even further. It is hoped, that ILM and UMT will provide an environment that is full of opportunities for the future students.
